

### THANK YOU!

Our team at HOPE Coffee is amazed at what the Lord has done in 2014! **This report provides only a small glimpse of the personal impact made as a result of many people, churches, and organizations choosing to buy and serve HOPE Coffee.** We are beyond grateful for your partnership with us that has made this all possible. As a company our primary focus is relationships. From Honduras, we strive to connect the local church with families in their communities through acts of service in Christ's name. In the US, we endeavor to share our exceptional coffee with churches, businesses and individuals, allowing them to become a partner with us in our mission in Honduras. We would not be able to do all this without your commitment to partner with us by buying and serving our products and we are eternally grateful.

### A Bathroom Changes Everything

Gloria Mejia and her two daughters in Yoro, Honduras, once began each morning by walking down to the river to get ready for the day. Gloria's battle with cancer further complicates her daily life. Her two daughters are able to help by accompanying their mother on the four hour journey to the hospital for her treatments. Pastor Pablo, who serves at a church near the Mejia's home, heard of this family's struggles and responded. HOPE Coffee partnered with his church

members to build the Mejia family a bathroom. Since the project began, Pablo's wife, Dina, has been meeting with the family each week for discipleship. **Please pray for Gloria's healing and that she and her daughters would accept the eternal gift of spiritual healing through Jesus Christ.**

### A Home for Twelve

HOPE Coffee partnered with Iglesia Betel (Bethel Church) in Siguatepeque, Honduras and a children-at-risk ministry known as Prodim to replace the mud home of the Calix family with a permanent concrete and brick home. Santos, the father, provides for his family of 12 by working for coffee and agricultural farmers in the area. Several of his kids have recently trusted Christ. This construction project also gave the church opportunity to share the gospel with the two workers, Cristian and Junior, who were hired to build the home. Please pray that they would trust in the eternal

shelter of Jesus Christ. **We rejoice in the provision of a new home for this family through Christ's church and many of you who have supported HOPE Coffee through your purchases.** Your choice to drink HOPE Coffee allows for families, like the Calix family, to experience the love of Christ through His church on a more personal and intimate level.

## 10 NEW BELIEVERS
