

AMAZED

Our team is humbled and deeply moved as we reflect on how God worked through the ministry of HOPE Coffee in 2015. Because people, churches, and organizations chose to buy and serve HOPE Coffee, lives were impacted in significant ways. In much the same way that an excellent cup of coffee takes time to cultivate, harvest, and roast before being enjoyed, it takes time to cultivate relationships that lead to lives being transformed by the Holy Spirit. Thank you for helping to advance the gospel by joyfully serving HOPE Coffee!

Disaster Relief

In October, The HOPE Coffee Honduras team responded to a devastating flood that severely damaged several communities in Siguatepeque, Honduras. The team helped by connecting the local church with families who had lost everything. We praise the Lord for His provision of extra funds donated through Camino Global to build five new homes. Please pray that the families affected by the flood will turn to Jesus.

The Word Spoken

In southern Honduras, God provided a house for German and Norma through a government program. Although the house was a gift, they were unable to move in because their new home had no electricity, water, or bathroom. The local church, where their oldest daughter attends, saw this family's need and determined to share with them the love of Christ.

While church members built a *pila* for water storage and installed the electric system, other believers shared the gospel with the family and neighbors who came by to see what was happening. We rejoice that six children from the house next door trusted in Jesus Christ! Pray for German and Norma to trust in Jesus as well.

Prisoners Need Jesus Too

In the small Honduran village of Lauterique, the local church resolved to reach out to a local prison. Each month, several believers from this church visit the overcrowded prison and share the hope that can be found in Jesus Christ. The believers began to notice a tangible need that could be met. The inmates had built a roof over an outdoor area used to receive visits from family and friends. However, it was not adequate to keep the ground under this shelter from becoming muddy and unusable during the rainy season.

Pastor Juan and his church partnered with HOPE Coffee to pour a concrete floor under the roof. Now, not only do the inmates have a better place to meet, the church can use it to hold services with the prisoners. Pray that the gospel message would penetrate the hearts of these men as the church continues to serve them.
