Serve Better

hopecoffee.com

HOPE Coffee uses 100% Arabica coffee beans that are cupped for quality and classified as specialty-grade coffee. We buy this coffee directly from farmers in Honduras and Mexico through our partnerships with small local farmer co-ops. We invite you to enjoy **HOPE Coffee** in your home, office or church and help us share the gospel.

"Our team unanimously selected HOPE Coffee in our blind taste test." - Lenawee Christian Ministries

Three Churches Unite

In July of 2016, three Honduran churches partnered with HOPE Coffee to build a home for a single mother and her children in the mountainous region of Taulabe. While Marianna was a believer, her sons were not. God prompted Pastor Pedro to live out the gospel message by gathering a team of believers to clear land and build a home for Marianna. Through the construction process, relationships were built and Marianna's son César came to know Christ! Today, this new home hosts a weekly community Bible study!
